

DISABILITY SOLUTIONS

Apollo prides itself on being 'the total lift company'. The breadth and depth of our experience and expertise ensures we can deliver the best possible service to our clients across the complete spectrum of lifts. Over the past 26 years, we have been providing a broad range of solutions to the disabled – from stairlifts to bathlifts to through-the-floor lifts. We can install and service many of the leading brands, including:

- Bison Bede
- Stannah
- Minivator
- Freelift
- Wessex
- Terry
- Pollocks

Working across both the public and private sector, we undertake installation projects across the UK; these are subsequently serviced and repaired out of our London and Leeds operations centres. Dedicated engineers are fully trained on manufacturers' equipment and clients have the reassurance that they are dealing with a large, well-resourced service provider. We have also developed a number of specialist areas such as local authority housing, housing trusts and hospitals, as well as supplying the domestic market.

In addition, we are currently at the forefront of the industry's drive to ensure that lifts comply fully with the Disability Discrimination Act 1995, which came into force in January 2004. We have our own DDA team on hand to help property owners and building managers get to grips with this significant piece of legislation, with its lengthy list of specific requirements and provisions for disabled users.

Clients range from very big blue-chips to private homes with everything in between: hospitals, sheltered accommodation, housing associations, local authorities, government buildings, universities, retailers etc.
